Re: Specifications for Lined Tanks

Some manufacturers have stopped using Plasite-lined tanks. This creates an opportunity for Shipco. Our understanding is that other companies have had warranty problems because they apparently cannot follow the proper welding techniques and procedures to ensure that the lining does not come off during the warranty period.

This situation creates an opportunity by emphasizing Plasite-lined tanks in specification! Keep in mind that Shipco offers both stainless steel and Plasite-lined tanks.

Sincerely,

Shipco® Marketing and Sales Department
